

Covid19 / Coronavirus

The Fishtek team are closely monitoring the Coronavirus (COVID-19) situation and are following the advice issued by the Government and Public Health England. To ensure a continuity of work delivery for clients and to protect our staff, Fishtek has put the following measures in place:

- We have tried & tested communication facilities, technology & processes to support remote/home working, including remote access to our secure server. All staff have access to this when working remotely from the office and all staff are moving to home / remote working
- All face to face meetings will be postponed and will be held over the phone or via teleconferencing facilities
- All travel will be avoided unless essential and public transport will be avoided
- All international travel has been postponed for at least the next 30 days, as per FCO advice
- While the office is unattended, all telephones will be re-directed to on call members of staff

We may have members of the team directly affected by illness during this time and this may reduce our capacity to deliver work. We will, however, endeavour to ensure that we keep the impact of such disruption to a minimum, by redeploying resource as available.

Thank you in advance for your understanding as we go through what is likely to be a very difficult period of time.
